

United Way of North Central New Mexico

Serving Bernalillo, Sandoval, Santa Fe, Torrance, and Valencia counties

For fifteen years, the Family Advocacy Center (FAC) has supported victims of sexual assault and interpersonal violence. FAC offers a wide range of services at one location which reduces additional trauma and stress for victims of domestic violence. Onsite services include advocacy, medical care, legal and financial assistance, law enforcement and prosecution.

Nationally, one in three women and one in seven men are victims of some form of domestic violence, which means that in the Albuquerque metro area, approximately 80,000 women and 30,000 men are victims of domestic violence each year. Arrests for domestic violence increased since COVID-19, making this response more urgent.

More than 5,000 people seek services at FAC annually. Victims need a wide array of supports, like shelter, food and clothing, physical safety, physical and mental health attention, advocacy and legal support, and ultimately opportunities for sustainable, positive change. FAC mitigates the effects of domestic violence and strengthens the path to resiliency.
