

UNITED IN PURPOSE

LIVE UNITED

Education is an important component to United Way of North Central New Mexico's Rising Together work. Equal access to educational opportunities means that children and adults will have the opportunity to succeed and thrive.

United Way has established strategies to increase student attendance and engagement, help adults transition back to school and support them to completion, and create career exploration experiences for students and professional development opportunities teachers. Your donation can make a real impact on education in North Central New Mexico – join us in making a better tomorrow a reality with your gift today
